

July/August 2020: Treatment plan - Natural Therapeutic Therapy Handling Cancer

Immuno Enabling Therapeutic Duo Therapy

Salvestrol

<https://www.vitaminadviceshop.nl/nl/393266/salvestrol-platinum-60-capsules/?pos=394>

2000 points treatment (6-18 months), 1 per day

Do not overdose (2000 is the absolute max), if forgotten skip dose

<https://www.vitaminadviceshop.nl/nl/393267/salvestrol-shield-60-capsules/?pos=298>

350 points maintenance 1 per day

If forgotten skip dose

Resveratrol

<https://www.weightworld.nl/resveratrol-extract.html>

<https://www.vitaminadviceshop.nl/nl/1021475/resveratrol-30-capsules/?pos=226>

200-250 mg treatment (6-18 months) 1 per day

Do not overdose (500 mg is the absolute max), if forgotten skip dose

Warning; patients who have cancer cells positive for either estrogen (ER) or progesterone (PR) should **not** take Resveratrol.

Preventive Metastasis Therapeutic Duo Therapy

Biochanin A

<https://www.vitaminadviceshop.nl/nl/393940/red-clover-flower-and-leaf-extract-60-capsules/?pos=329>

250 mg treatment 1 per day (12-24 months)

Do not overdose (250 mg is the absolute max), if forgotten skip dose

Curcumin

<https://www.vitaminadviceshop.nl/nl/602383/curcumine-slcp-120-capsules/?pos=1614>

80 mg treatment 1 per day (12-24 months)

Do not overdose (100 mg is the absolute max), if forgotten skip dose

Side effects:

Salvestrol: diarrhea (mild after day 3 for no longer than 3 days)

Resveratrol: not known to have any, see ER/PR warning above

Biochanin A: stomach cramps (for max 3 days) (1,2)

Curcumin: stomach cramps (for max 3 days) (1,2)

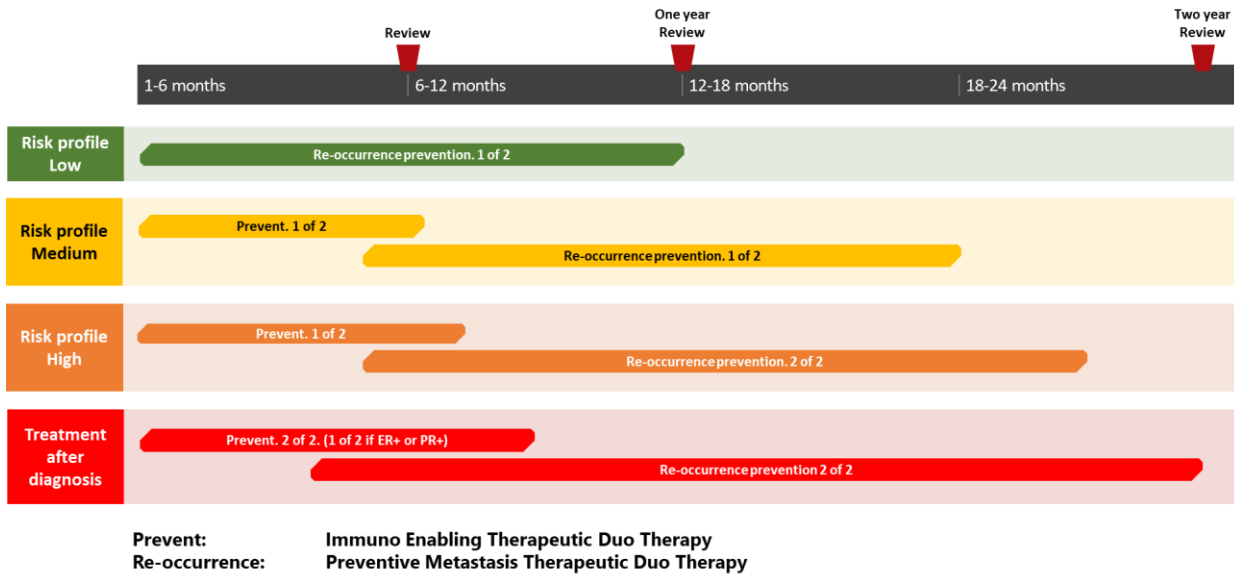

(1): There is evidence combined use with Tamoxifen reduces the effect of Tamoxifen, do not mix, it is one or the other treatment not both

(2): There have been cases where the combination with blood-thinner medication had adverse effects, if in doubt refer back to our profilers for further study

Base lines:

- 1) Functional immune system
- 2) Ability to swallow tablets/capsules

Treatment Plan - Natural Therapeutic Therapy Handling and Preventing Breast Cancer

This treatment, which is **not** medical advice, neither includes regulated pharmaceutical components, has been extrapolated by using three Software engines: © Bio-chemical profilers, © Contextual quantum analyzers and © Medical quantum analyzers produced by ECSystems.nl

Note: we do not sell any product, we do endorse points of sale because of product purity and efficacy; we provide computational power to run our analyzers.

Future development 2020-2021.

Imprinting and Editing of the Human CD4 T Cell promoting Auto Immuno Response and Auto Metastasis Inhibition.

August 2020, we are running series of Bio-chemical profilers, Contextual quantum analyzers and Medical quantum analyzers to determine best approach.
